## DRIVING GROWTH AND INNOVATION

The **Intersolar Mexico International Conference** reaffirmed its role as the most relevant and visionary platform for driving solar and renewable energy development in the country.

- Held at a key moment for the solar industry in Mexico, promoting the analysis of challenges and opportunities.
- Brought together leaders from the public, private, and academic sectors, fostering constructive dialogue.
- Established itself as an inclusive forum where innovation and diverse perspectives drive sustainable and collaborative solutions.
- Offered a unique platform to share knowledge, experiences, and expand professional networks.

# Exhibition Program

The sixth edition featured two dedicated areas that offered visitors the opportunity to receive free training through conferences and technical workshops held by exhibitors and partner organizations: the Intersolar Stage and the Innovation Forum.
